- Feedback on Summary

5 Questions

- To be successful, agencies often need both operating and capital dollars. As a collective (DC MOVES Table) what approaches could be undertaken to assist or support agencies to remain sustainable or to grow.
- Agencies may review their structures as part of an operational reviews to address service efficiencies or capacities. What type of organizational structure supports or specific human resource supports (or training) does your agency require?
- Agencies in Dufferin County are experiencing a higher level of clients with diverse needs (family break down, health concerns, poverty issues). As a collective what approaches could be taken to better address some of these concerns.
- If a formal Collective Impact initiative was undertaken by the DC MOVES table, is DC MOVES the right table to lead such an initiative if so, why?
- The community as the social change agent, Health and Wellbeing have all been identified as broader concerns requiring solutions. As part of a collaborative how could your agency make a difference?
